**3. HAZARDS IDENTIFICATION**[BACK TO KEY](#)**EMERGENCY OVERVIEW:**

Extremely Flammable. Clear volatile liquid. Moderately toxic by ingestion. Mildly toxic by inhalation.

**POTENTIAL HEALTH HAZARDS**

**SKIN:** Irritant. Can cause dermatitis through defatting of the skin.

**EYES:** Irritant. Liquid and vapor concentration can cause redness and itching.

**INHALATION:** Can cause headache, nausea, drowsiness, vomiting, disorientation, and loss of consciousness. Can cause lung and kidney damage. A central nervous system depressant

**INGESTION:** Do not induce vomiting unless instructed to do so by a physician. Get medical assistance immediately.

**DELAYED EFFECTS:** Can cause damage to the respiratory tract, kidneys, and central nervous system.

**FLAME PROPAGATION RATE (solids):**  
**OSHA FLAMMABILITY CLASS:**

Not Applicable  
IA

**EXTINGUISHING MEDIA:**

Carbon dioxide, dry chemical or alcohol foam.

**UNUSUAL FIRE AND EXPLOSION HAZARDS:**

Dangerous fire hazard when exposed to heat or flame. Vapor is heavier than air and danger of flashback exists.

**SPECIAL FIRE FIGHTING PRECAUTIONS/INSTRUCTIONS:**

Do not release runoff from fire fighting efforts to sewers or waterways. Fire may produce toxic fumes. Always wear Self Contained Breathing Apparatus.

[6. ACCIDENTAL RELEASE MEASURES](#)

---

[BACK TO KEY](#)

**IN CASE OF SPILL OR OTHER RELEASE:**

(Always wear recommended personal protective equipment.) Eliminate sources of ignition. Isolate the spill area. Stop leak in a safe and practical manner. (If leak cannot be stopped easily and safely, advise trained emergency response personnel of the situation.) Using inert material (such as ground corncobs) dike the spilled solvent to prevent it from running into drains or waterways.

Spills and releases may have to be reported to Federal and/or local authorities. See Section 15 regarding reporting requirements.

[7. HANDLING AND STORAGE](#)

---

[BACK TO KEY](#)

**NORMAL HANDLING:**

(Always wear recommended personal protective equipment.) Flammable liquid and vapors. Keep container closed. Do not breathe vapors. Avoid contact with skin, eyes and mucous membranes. Keep away from heat, sparks and flame. Electrically ground all handling equipment. Protective neoprene or rubber gloves and apron are recommended. Ensure contents are at or below room temperature before opening container(s).

**STORAGE RECOMMENDATIONS:**

Store in an area designed for storage of flammable liquids. (OSHA 29 CFR 1910.106)

Protect from temperature extremes and sunlight, and store away from incompatible substances and in accordance with 29 CFR 1910.106. Avoid acids, bases, oxidizers, explosives, nitrogen-fluorine compounds, sulfites, perchlorates. Flammable liquid and vapor. Once liquid solvent has been completely dispensed, containers which appear "empty" should be handled in the same manner as when they were "full" of liquid solvent.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

[BACK TO KEY](#)

### **ENGINEERING CONTROLS:**

Provide general or local exhaust ventilation systems to maintain airborne concentrations below exposure limits. Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

### **PERSONAL PROTECTIVE EQUIPMENT**

#### **SKIN PROTECTION:**

Wear chemically protective gloves, boots and aprons to prevent prolonged or repeated skin contact.

#### **EYE PROTECTION:**

Wear protective eyeglasses or chemical safety goggles, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices.

#### **RESPIRATORY PROTECTION:**

Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear a MSHA/NIOSH-approved respirator. For emergency or non-routine operations (cleaning spills, reactor vessels, or storage tanks), wear an SCBA. Warning! Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.

#### **ADDITIONAL RECOMMENDATIONS:**

Ensure that emergency eyewash stations and washing facilities are available in work area..

### **EXPOSURE GUIDELINES**
